

TONY GEORGE PUTHUCHERRIL
Senior Research Fellow
IOI-Canada

Tony George Puthucherril, is a Research & Teaching Associate at the Marine & Environmental Law Institute at the Schulich School of Law, Dalhousie University and a Senior Research Fellow with the International Ocean Institute, Canada. He is also a member of the World Commission on Environment & Development of the International Union for Conservation of Nature (Canada). He is a former Assistant Professor at the National Judicial Academy, India and a Visiting Professor of Law at the University of Petroleum and Energy Studies, India.

A Vanier Canada Graduate Scholar, Dr Puthucherril holds a Ph.D. in Sea Level Rise, Integrated Coastal Zone Management, & Coastal Law and an LL.M. in Maritime Law from the Dalhousie University. He also holds a research-based M.Phil. degree in Water Resources Law from the National University of Juridical Sciences, India. He has qualified the National Committee on Accreditation exams for international lawyers, which is administered by the Federation of Law Societies of Canada. Presently, he lectures on Property Law, Law of the Sea, and Arctic Ocean Law and Policy at the Schulich School of Law, Dalhousie University. He is an internationally acknowledged expert in sustainable development law and his primary area of research interests include, the interface between law and sustainable development, Arctic Ocean law and Policy, Law and governance in South Asia, Ocean and Coastal Zone Management law, Climate Change Law and Water Law. He has been invited to present his works, among others, at the International Bar Association, the Commonwealth Judicial Education Institute, Wisconsin Law School, and the Oslo K.G. Jebsen Centre for the Law of the Sea. Among his publications, the two major ones are - "From Shipbreaking to Sustainable Ship Recycling: Evolution of a Legal Regime" (Martinus Nijhoff, 2010)^a, which has been acclaimed as "the work" on this subject and "Towards Sustainable Coastal Development: Institutionalizing Integrated Coastal Zone Management and Coastal Climate Change Adaptation in South Asia"^b (Martinus Nijhoff, 2014), "a book that should be read by coastal policymakers and decision-makers from all countries".
